O4.O1 7. RITUAL AT THE GROVE (EL 14)

Map: Ritual

A clearing roughly 100 feet in diameter opens before you. As you step into it, a wave of vertigo briefly possesses you, forcing your knees to buckle as your vision shimmers. Steadying yourself, you realize the strange marks you noticed previously around the estate have been carved into every tree around the perimeter of this place. An overpowering stench, a combination of decay, blood, and something obscene poisons the air. Expectation hangs thick as if the land itself holds its figurative breath for what is to come....

The Dark Young rests in tree shape form at the grove's far western edge, awaiting the sacrifice ritual. Knowing it can use its mass insanity ability once per day, the creature waits for as many humanoid as possible to enter the area before using it to maximum effect. It then observes its victims for three rounds to see who is affected. During this time, it casts entangle behind its foes to prevent escape and hopefully drive them closer before finally revealing its true, mind-shattering form and engaging in battle.

THE ENEMIES

The two primary enemies here include the Decar Foedo and the Dark Young of Shub-Niggurath. The lunatics they've assembled are here to feed the Dark Young, although they may become combatants depending on the results of the confusion effect each one suffers from.
